

MG OWNERS' CLUB SUPPORT YOUNG RACE DRIVERS

The Championship has around 50 drivers with a wide cross section of ages from the young to the, how shall we put it, not so young. As with all forms of competitive sport, the future success of the Championship depends on younger drivers coming in the Championship and learning the skills of circuit racing in what is a very competitive yet cost effective series.

In a bold initiative designed to support young drivers stepping onto the motor racing ladder, the MG Owners' Club offer a scheme whereby young novice drivers entering the Championship will receive a number of benefits including some direct financial sponsorship to reduce the costs of race entry fees and running costs.

The MGOC Young Driver initiative is open to all novice drivers under the age of 20 who are in full time education. If any young driver wants to take advantage of this valuable and innovative scheme, please contact Linda or Judith at the MGOC offices on 01954 231125.
